**As the end customer for the project "Sivas 2 RM" in Turkey, Votorantim Cimento Sanayi ve Ticaret A.S. will use a LOESCHE vertical roller mill.**

**Ankara** – For the project "Sivas 2 RM", the customer Tianjin Cement Industry Design & Research Institute (TDI) has placed an order for a type LM 48.4 LOESCHE mill for grinding cement raw material.

The proven mill for the grinding of cement raw material will be designed with a capacity of 420 t/h and the material ground to a fineness of 14 % R 90 µm. The gearbox has a power output of 2,860 kW. The engineering for the cyclone separators is also included in the scope of supply.

The lead time for the main components of the mill is 8 months, while the gearbox will be supplied within the next 9 months. The commissioning of the vertical roller mill is planned for the end of next year.

At Votorantim Cimentos Brasil S.A., it is normal for all project-related and technical decisions to be made at the head office in Brazil. There has been a very good collaboration between Votorantim Cimentos Brasil S.A. and LOESCHE GmbH on a series of projects that have been successfully implemented and smoothly conducted for a number of years. These include the cement plants Rio Branco, Laranjeiras, Salto de Pirapora, Primavera, Edealina, Cuiaba and lots of others.
